29  may 1						

- 1<sup>st</sup> day of each month – Determined by new moons that are projected to be at least 3% visible, or in the case that 30 days have been fulfilled. If a new moon is sighted and that sighting is contradictory to this calendar, the sighting of the new moon holds sway over this calendar\*\*
- Feasts are dated in agreement with Leviticus 23 and other supporting verses within the 66 book canon of Scripture.
- High Holy Days are in **BOLD**. Note: some Holy Days that are NOT High Holy Days also are in bold. Purim, Hanukkah, and other optional Jewish fun days are not noted on this calendar. You are encouraged to note those yourself and enjoy Hebrew culture while esteeming your brothers more highly than yourself.
- The Counting Of The Omer starts with First Fruits. Every Weekly Sabbath has it's corresponding Omer number noted on your calendar, counting seven full Sabbaths (weeks, 49 days) until reaching the 50<sup>th</sup> day: The Feast of Weeks!\*\*\*
- Days begin and end with the sunset. Sunrise is roughly the halfway point of each day.
- Gregorian Calendar days are noted on:
  - The beginning and ending of each Gregorian Month
  - The beginning and ending of each Hebrew Month
  - Every 1st Day
  - Every Feast Day
  - Another day of importance

\*\*Moongiant.org – these projections are not actual sightings, but calculations projecting what percentage of the moon will be visible on what day. Actual visibility from this source is accurate within 1 percent; However, the visibility percentage available to the naked eye varies based on the sighter's location, the sun's location in relation to the sighting location, and the moon's location in relation to both preciously mentioned. Other factors such as visibility levels, cloudiness, and the moon's path in the sky also come into play during an actual sighting. This calendar has used Moongiant for 2 full years and has not been wrong in any case. This calendar is the 3<sup>rd</sup> cycle of this calendar's itteratio with no known mistakes.

\*\*\*Counting The Omer: This way of Counting The Omer is new to me, and is being brought to my attention through prayer. Brother Judah is generally theologically correct on several of the issues of utmost importance except when pertaining to Yeshua being Messiah and some much smaller idiosyncrasies of the law. It is to be brought into consideration that The Almighty has left brother Judah responsible for His oracles and that he has taken that responsibility more seriously than any other people group has ever taken any responsibility in the history of everything. For this reason I am considering this method of Counting the Omer. Not for his sake, but because I believe it is the way Elohim intends for His Event: The Counting of The Omer, to be performed. This method is supported by the writings of the Targamum\*\*\*\*. Also, the writings of Josephus\*\*\*\* describe this counting as being the method brother Judah has been utilizing for millennia. I am unsure of this method's accuracy. For further information refer to the free YouTube videos found when searching "Tony Robnsinson The Counting of the Omer"\*\*\*\*. **NOTE: I AM NOT RESPONSIBLE FOR YOUR RELATIONSHIP WITH THE CREATOR. IT IS YOUR RESPONSIBILITY TO PRAY, RESEARCH, ASK QUESTIONS, AND HAVE ADEQUATE FELLOWSHIP THAT WILL AID YOU IN FINDING THE PATH THAT YAHWEH INTENDS FOR YOU TO WALK. NOTE THAT MEETINGS WITH HIM IN THE CONTEXT OF HIS FEASTS AND SABBATHS ARE THE MOST IMPORTANT PART OF THE LAW FOR WHICH HE INTENDS FOR YOU TO FOLLOW. EXPECT FOR IT TO BE DIFFICULT AND FIND CHARACTER IN TRIBULATION.**

In Yeshua The Mashiach be blessed and find favor in both the eyes of men and The Father.
